

Finally

A system which allows the power and consistency of DDC controls to be applied to modular classrooms !!

Triangle MicroSystems has applied WIRELESS TECHNOLOGY to our already complete line of Building Automation Systems. This technology eliminates the hardwire connection required for most digital control systems, and provides complete environmental and lighting control for your classrooms.

***Improve Indoor Air Quality !
Optimize Student/Teacher Environment !
Lower Operating Costs !
Increase Equipment Life !
Completely TRANSPORTABLE !***

Call Triangle MicroSystems today to schedule an on-site demonstration
